SUMMARY

Front-end Developer with a solid foundation in building responsive, user-focused web applications using modern technologies. Committed to writing clean, maintainable code and delivering high-quality solutions that enhance user experience. Passionate about contributing to innovative, growth-driven teams and continuously evolving as a developer.

TECHNICAL SKILLS

Front-End & UI Frameworks:

- [HTML5](#), [CSS3](#), [JavaScript](#), [jQuery](#), [Bootstrap](#) +7y
- [TypeScript](#)
- [React.js](#), [Next.js](#), [React Native](#) 3y
- [Expo](#), [react navigation](#) 2y
- [Tailwind CSS](#)
- [React Bootstrap](#), [Material UI](#)
- [Shadcn](#)
- [Radix UI](#)

State Management & Validation:

- [Redux](#), [Redux Toolkit](#) 3y
- [Zustand](#)
- [Zod](#)

Back-End & Databases:

- [Node.js](#)
- [PostgreSQL](#), [MongoDB](#), [SQLite](#)
- [Supabase](#), [Firebase](#)
- [RESTful APIs](#)

Tools & Platforms:

- [Git](#), [GitHub](#)
- [Cloudinary](#)
- [Maps and Geocoding](#)

Design & Prototyping:

- [Figma](#)
- [Photoshop](#), [After Effects](#), [Lottie](#)

WORK EXPERIENCE

[Obaidah Shop Project](#)

Feb 2025

[Next.js](#)

Developed a secure e-commerce platform using Next.js, featuring an admin dashboard for managing products and notifying users about new arrivals and discounts. Integrated Supabase with PostgreSQL for robust backend and data management. Utilized Zustand, Zod, Shadcn, and Tailwind CSS for a modern, responsive UI and state handling.

[Little Brain Boosters](#) – remotely

Apr 2024 – Oct 2024

[React.js](#) [Vite](#)

Worked remotely as a Front-End Developer for a Netherlands-based company, maintaining and enhancing the company dashboard with a scalable architecture to ensure seamless data delivery to the Dopalearn mobile app. Implemented server-side logic using Node.js and managed real-time data with Firebase. Utilized React.js, Redux, React Bootstrap, and GitHub to deliver a responsive and efficient front-end experience.

[BioNatural](#) – Team work

Feb 2024

[Next.js](#)

Developed the responsive e-commerce site BioNatural using Next.js, Redux, Tailwind CSS, Shadcn, and TypeScript for optimized performance and seamless user experience. Managed version control with GitHub.

[MAKTABATI – Mobile App](#) – Published

Mar 2024

[React Native](#)

Developed MAKTABATI, a cross-platform mobile app for managing book data, using React Native and Expo for seamless iOS and Android support. Implemented efficient state management with Redux Toolkit and real-time data handling via Supabase. Integrated Tailwind CSS, React Icons, SQLite, and PostgreSQL, while maintaining version control and collaboration through GitHub.

PERSONAL SKILLS

- **Self-Learning:** Self-Learning: Proactively keep up with the latest technologies and trends through continuous, independent learning to improve my skills and stay current in the fast-evolving tech landscape.
- **Teamwork:** Work collaboratively with cross-functional teams, promoting clear communication and a positive work environment to achieve shared objectives effectively.
- **Problem-Solving:** Apply critical thinking and creativity to identify issues, evaluate solutions, and implement efficient, innovative fixes that improve overall performance and outcomes.

PROJECTS

Recent Web Development Projects

[MAKTABATI - Mobile App](#)

Feb 2025

This app designed for students and book lovers to efficiently manage their personal libraries. The app helps users organize, track, and locate their books with ease, ensuring they always know what books they own and where they are placed.

- **Frontend:** React Native, Expo, React Navigation, Redux Toolkit
- **Backend:** Supabase, PostgreSQL
- **Local Storage:** Expo SQLite

[E-Commerce online Shop](#)

Oct 2024

As a Next.js Developer

- This freelance project is an e-commerce platform designed for selling products online. It includes an admin dashboard secured with password protection, enabling administrators to easily manage products by adding or removing them. Additionally, the platform provides tools to notify buyers about new arrivals and ongoing discounts. The backend is powered by **Supabase** and utilizes **PostgreSQL** for efficient data management and storage.
- **Tech Stack:** with Next.js, Zustand, Zod, Shadcn, Tailwind css, Supabase, Postgresql.

[BioNatural - Team Work - as Front end developer](#)

Feb 2024

- BioNatural is an online e-commerce platform developed collaboratively with a dedicated team.
- **Tech Stack:** Next.js, Tailwind CSS, Shadcn, Git, TypeScript, Figma, Zod.

[Flight Fetch Project](#)

March 2025

- Flight Fetch is an online flight search platform designed to find and compare flight prices.
- **Tech Stack:** Next.js, Tailwind CSS, MUI, Shadcn, Git, TypeScript, API

[Sun Tracker Map App](#)

Feb 2025

- Built an interactive web application that allows users to select any country on a Mapbox-powered map to instantly view whether the sun is currently rising or setting. Utilized Day.js for accurate time and date calculations, Tailwind CSS for responsive UI design, and Next.js for server-side rendering and performance optimization.
- **Tech Stack:** Next.js, Tailwind CSS, Mapbox, Day.js

[Online Library Platform](#)

Sep 2023

- Developed a responsive web app to manage a library of 2,000+ books with full CRUD functionality. Used Next.js, Redux, MongoDB, and Bootstrap to build a scalable and user-friendly interface.
- **Tech Stack:** Next.js, Redux, MongoDB, And Bootstrap.

EDUCATION & CERTIFICATES

[React - The Complete Guide 2023, by Maximilian Schwarzmüller \(438 Lectures, 48.5 Hours\)](#)

Completed an in-depth React course covering core fundamentals to advanced concepts. Gained hands-on experience building scalable applications with state management, component architecture, hooks, and performance optimization.

[The Web Developer Bootcamp 2022, By Colt Steele \(615 Lectures, 63 Hours\)](#)

Completed an immersive bootcamp focused on hands-on coding, project development, and real-world problem solving. Gained practical experience across front-end and back-end technologies.
